Cricket Hicks is missing. He must have followed the dramatic show company away from Hickville Tuesday night, as he was heard to declare that he was going to get even with the villain for treating the widow woman so rough in the third act if it took him all summer.

It is feared that Fletcher Henstep is losing interest in the things of life. Last Sunday somebody came to church late and Fletch didn't even look around to see who it was.

HOROSCOPE

THURSDAY, JULY 2, 1920.

THIS is a day of contrary influences. According to astrology, although Saturn and Uranus are in benefic aspect early in the morning, Mars and the Sun are adverse later. Mercury is in friendly way in the evening.

Great divisions of opinions and much chaotic thought are probable at this time, owing to the planetary conditions which have a strongly disorganizing influence on the human mind.

While there will be a clarifying of sentiment on public matters there will be also grave dissensions even among persons of the same family or organization.

Mars and the Sun are in an aspect foreshadowing trouble among leaders in church denominations, political associations and women's clubs.

This is not a favorable influence for soldiers, or for men and women in any branch of public service, since

OPHELIA

they are likely to be disappointed in their dear ambitions.

There is a forbidding sign for men in positions of authority since they will meet many crises and will be troubled by defections among their supporters or their subordinates. It is not an auspicious day for political initiative.

Repeatedly astrologers have given warning that plots and intrigues would be numerous as the summer advanced. Secret dictators will direct and misdirect various organizations and women should be particularly careful about joining new societies or clubs. According to certain psychic laws new power attracts sinister forces and the voting privilege will cause many strange intrigues to be inspired.

Labor continues subject to influences for discontent and for troubles of various sorts in which leaders may be discredited.

Women at this time are subject to a direction of the stars for dual ac-

tivities, home duties and public responsibilities both increasing.

Persons whose birthdate it is may have an exciting year. They should be exceedingly careful in all important activities.

Children born on this day may be very fond of company and excitement. These subjects of Cancer have the moon as their principal ruler.—Copyright, 1920, by the McClure Newspaper Syndicate.

MORE PROHIBITION AGENTS NEEDED TO ENFORCE LAW

The prohibition force in El Paso, under J. H. Fleming, agent in charge, is inadequate to combat the traffic in illicit liquors and drugs, in the opinion of W. H. Kennedy, supervising field agent for the southwestern prohibition division.

For this reason Mr. Kennedy, who was in El Paso Tuesday for a brief inspection of the local force, has promised Mr. Fleming he will postu-

tion Washington for additional men for El Paso.

Before leaving Mr. Kennedy said he considered this one of the most important points of the Mexican border to be guarded against the smuggling of liquors and drugs, as there is a heavy traffic in both at this place. He also expressed gratification at the results obtained by Mr. Fleming with his small force of men.
